AUCTION 25

Closing December 11, 1991, WEDNESDAY, 6:00 p.m. USA Pacific Time

(PLEASE NOTE DAY OF THE WEEK! Changed from previous practice.)

Collectors should look especially for collections of British Pub Checks, Luxembourg beer tokens, Shanghai issues and a collection Netherlands East Indies.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone during the week prior to closing. Current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute, I will have all current bids posted during the last week before closing, but often at the end of the last day this is not possible when they come in rather quickly. 98% of all successful bidding is accomplished with high bids by mail.

Penang, Malaysia. Another counter in the form of a U.S. gold coin; this time resembling a \$50 piece of the type used 1839-66. The legend over the eagle reads **Newbest**. Under the eagle and backwards is the wording **Oriental Jewellery** with the first word misspelled. On the Coronet is **Penang** and in the exergue is **1946**. In Sale 24 another was dated **1934** in the form of a U.S. \$20 gold piece (See Lot 1114). Bob Lyall argues that the earlier was just a jewellery piece, which argument could apply to this one as well. I believe that they are gaming counters which carry advertising much as did the old Imitation Spade Guineas like many similar used here in the states. I wonder if there are others like these issued by so far unknown merchants. (See Lot 1120.)
